PROFESSIONAL EXPERIENCE

Paragon Wellness Center — Chief Technology Officer

Philadelphia, PA | Sep 2024 – Present

- Lead the strategic and technical direction for all technology and IT initiatives within a medical/behavioral health organization.
- Oversee full-cycle development projects, spanning both front-end and back-end work, to support various healthcare services.
- Supervise and mentor IT staff, providing training on the latest technologies and ensuring consistent technical support across departments.
- Drive integration of third-party platforms, coordinating with external tech companies to enhance interoperability with in-house systems.
- Administer and manage IT infrastructure, ensuring security, compliance, and high operational standards across all platforms.
- Facilitate regular cross-functional meetings to align technology strategies with the company's broader goals, fostering collaboration and innovation.

FiveM — Full-Stack Developer

Dec 2022 – Sep 2023

- Developed and deployed Lua, HTML, CSS, JavaScript, and React applications with TailwindCSS, enhancing user experiences and interface designs.
- Conducted rigorous testing, debugging, and quality assurance to ensure stability and usability in final products.
- Built user-friendly interfaces, managed database integration, and collaborated on innovative product enhancements.

PGIP-Tech — Software Development Intern

Remote | *June* 2023 – *Sep* 2023

- Contributed to weekly projects utilizing JavaScript, Java, C#, and Python, developing full-stack capabilities.
- Actively participated in team presentations and collaborated on software solutions, enhancing technical and teamwork skills.
